representative number of students in training on those dates.

4. Completed comments on a proposed bill regarding training for governmental personnel at public and private institutions at government expense. While the bill exempts the Agency from its provision certain language in the bill may have the effect of repealing the legislative authority the director now has for these purposes. OTR comments take note of this and request the legislative counsel to safe-guard our interests in this respect.
5. Attended a Career Staff Selection Panel which completed action on 162 cases. There remain some twenty-five questionable cases to process by this Panel which will re-convene for this purpose on 19 March.
6. Conducted a meeting between representatives of Personnel and Training to resolve differences in the regulation governing the development of language skills. It is expected that the regulation will be produced and agreed upon well before a opinion from the Comptroller General is received on the legality of use of funds as incentive awards for effort to acquire and maintain language skills.
